

Sustainable Farm Families launch

THE Sustainable Farm Families program for 2010 was launched at the 2009 field day of the Streatham branch of Southern Farming Systems

Vee Fay from the Lake Bolac Bush Nursing Centre and Jeremy Levinson, a committee member who has completed the program, launched the

program.

Mr Levinson said that despite his initial scepticism about the value of the program and his concern that it would take him away from his farm work for two days, he found the program extremely valuable and would recommend it to any farming family.

The first workshop for the 2010 Sustainable Farm Families program will be held in Lake Bolac on March 1 and 2, 2010, with follow-up workshops in March 2011.

To participate in this program contact Una or Vee Fay at Lake Bolac Bush Nursing Centre on 5355 8700.

BETTER HEALTH: Willaura community health nurse Leonie Tellefson, left, and Vee Fay from the Lake Bolac Bush Nursing Centre launch the Sustainable Farm Families program for 2010.
