

SHIFTING GEARS

farm safety resources for educators

Shifting Gears is for teachers wanting to engage in the concepts of rural health and safety with middle and senior school students living, studying, and/or wanting to pursue a career in agriculture and horticulture.

Join the farm safety researchers at the 2023 PIEFA Conference workshop, to preview the AV resources that showcase workplace and farm safety culture specifically designed for a young, risk-tolerant audience.

NATIONAL CENTRE FOR
**FARMER
HEALTH**

DID YOU KNOW THAT AGRICULTURE IS
WIDELY RECOGNISED AS ONE OF THE MOST
HAZARDOUS INDUSTRIES IN AUSTRALIA AND
WORLDWIDE?

THIS WORKSHOP WILL:

- Show our new and original, audio-visual materials and digital animation resources that are free & available for schools;
- Demonstrate how you may use the resources and lesson plans to engage in the concepts of health and safety;
- Connect farmers' illness, injury and fatality with the flow on effects to their families and communities;
- Highlight how young people can be empowered to speak up about their health, well-being and safety as shown by the unscripted farming leaders in the AV materials.
