

Alignment to NCFH Strategic Pillars

Evidence

Identify and evaluate health, wellbeing and safety risk factors in farming communities

Influence

Prevent risks, support early intervention and empower farmers to improve health, wellbeing and safety outcomes

Action

Develop protocols, frameworks and rural workforce capacity to drive expansion of, and access to, health check programs

Government Investment
\$400,000

Recommendations

Evaluate long term societal costs and outcomes

Integrate comparison group/s and follow-up health checks at multiple timepoints

Health Life Assessment (HLA)

AgriSafe™

Farmer HAT

Online Ag HP

Cost savings of HLA and AgriSafe™
